

## Learn about free music on the internet

How to get free music on the internet.

You can listen to free music in mp3 format on Astreaux World, streaming mp3 music 24 hours per day, and get thousands more stations with Live365.com. Astreaux World plays free mp3 streaming music that you listen to with Winamp, Windows Media Player, iTunes, RealPlayer, or many other mp3 music players, and many of those mp3 players are free too. You can get a free mp3 player [here](#).

You can listen to our internet radio station streaming ambient music, new age music, and space music anytime by joining Live365 for free, and get thousands of internet radio stations playing mp3 music in a variety of genre's, all hosted by DJ's who love the music they're playing. This is the legal and easy way to listen to free music on the internet.

How about access to free MP3 downloads? We have a list of the best safe places to download and/or hear music online. Be sure to check the MP3 Music Blog for links to artists, labels, and directories offering free music downloads. We're dropping a few links in every week so you can access free music all over the web.

If you join Live365's VIP Program you can get free mp3 music, and listen to that music ad-free 24 hours a day! That's thousands of stations streaming mp3 music for free plus not a single commercial ad. That's the way streaming music is supposed to be heard...streaming commercial-free to your home or office (and soon your car). The music is still free to all listeners always.

There are lots of illegal ways to listen to free music on the internet, but with internet radio stations like Astreaux World and thousands of other stations on Live365, you can get free music legally and listen to that streaming music free of commercials too! On Astreaux World alone you can listen to our free music stream for over 18 hours straight and not hear the same song twice!! You can't get that over the airwaves! And at Astreaux World you'll find that our artists sometimes give away their music for free right here on our site! You won't find that on terrestrial radio.
